CIT Relay & Switch offers RW Series Illuminated Rocker Switch

Minneapolis, Minnesota – The CIT Relay & Switch RW Series rocker switch offers choice of double pole single throw or double pole double throw in eight different functions. Housing color choices of black, white and grey are teamed with fourteen different actuator colors, including five transparent colors for illumination options, this highly versatile switch can be customized to fit nearly any application. Illumination options include two tungsten lamps and two neon bulb choices. This UL/CUL recognized switch offers quick connect/solder lug termination.

Specifications: The electrical life of the RW series is 10,000 cycles typically. Electrical rating is 20A @ 120VAC, 16A @ 250VAC, 1hp @ 250VAC and 3/4hp @ 125VAC for 2 position with 15A @ 125VAC and 10A @ 250VAC for 3 position. Contact resistance is less than 50mΩ maximum initially. Dielectric strength is 1500Vrms minimum. Insulation resistance is greater than 100MΩ initially. Actuator and housing are 6/6 Nylon with silver alloy contacts and silver plated brass terminals. Operating and storage temperature is -30°C to 80°C.

The RW Series illuminated rocker switches are ideal for telecommunications, instrumentation, automotive, HVAC, security and networking applications. Pricing ranges from **\$0.66**, dependent upon options and volume. CIT Relay & Switch lead-time is five to seven weeks.

CIT Relay & Switch, a division of Circuit Interruption Technology, Inc., manufactures a broad array of automotive, telecom, security, industrial and audio relays and switches in thru-hole, panel and surface mount styles. CIT Relay & Switch products are supported by a worldwide network of distributors and sales representatives. For more information about the CIT Relay & Switch RW Series switch or any of the CIT relay or switch products, contact CIT Relay & Switch, 1152 Highway 10 NE, Minneapolis, MN 55432.
