

Automotive Plug-In / PCB Mini ISO Relay

PC792A

FEATURES

- 40 Amps Continuus Carrying Current
- Internal Diode or Resistor Option
- Sockets Available
- Fully Automated Assembly

CONTACT RATINGS

Contact Form		1A SPST N.O.			
		1AA SPST N.O.			
		1C SPDT			
Contact Rating	1A	40A @ 14VDC, resistive			
		20A @ 28VDC, resistive			
1	IAA	2x20A @ 14VDC, resistive			
		2x10A @ 28VDC, resistive			
	1C	NO 40A @ 14VDC, resistive			
		NC 30A @ 14VDC, resistive			
		NO 20A @ 28VDC, resistive			
		NC 15A @ 28VDC, resistive			

CHARACTERISTICS

Insulation Resistance	100 MΩ min. at 500 VDC			
Dielectric Strength	500 Vrms, 50 Hz, between contacts			
	750 Vrms, 50 Hz, between coil & contacts			
Power Consumption	1.6W, 1.9W, 2.3W			
Terminal Strength	8N quick connect, 4N PCB pins			
Solderability	260°C 5 s ± 0.5 s			
Operating Temperature	-40°C to 125°C			
Storage Temperature	-40°C to 155°C			
Shock Resistance	147 m/s ² 11 ms			
Vibration Resistance	10-40Hz; 1.5mm double amplitude			
Weight	31.0g			

CONTACT DATA

560 W		
75 VDC		
40 A		
AgSnO ₂		
30 mΩ max.		
1 x 10 ⁷ operations		
1 x 10 ⁵ operations		

Values can change due to the switching frequency, desired reliability levels, environmental conditions, and in-rush current levels. It is recommended to test to actual load conditions for the application. It is the users responsibility to determine the performance suitability for their specific application. The use of any coil voltage less than the rated coil voltage may compromise the operation of the relay.

Automotive Plug-In / PCB Mini ISO Relay

¹⁾ Flux Tight relays are constructed such that Flux will not enter the relay in an automated soldering process, they are NOT suitable for water wash cleaning
