FOR IMMEDIATE RELEASE

CIT Relay & Switch offers AD Series RGB Illuminated Pushbutton Switch

Minneapolis, Minnesota – The CIT Relay & Switch AD Series offers a complete switch solution for all your panel needs, including home keys. Long travel of 4.5mm (standard) for AD01 or shorter travel of 3.5mm on the AD02, actuation force of 250 +/- 50gF. Contacts with gold plating assure high reliability and long life of 5,000,000 operations typically.

Available with red, green, yellow, blue and white LED colors. Six bicolor LEDs and custom RGB LEDs provide unlimited color combinations.

Compact design with numerous combinations of diffuser, semi-transparent and transparent cap options offer design flexibility in your applications. Pad printing and laser etching colors and styles make this versatile switch a must-have for designers.

Common applications for the AD Series pushbutton switches include broadcasting and audio video equipment. Pricing ranges from **\$3.37**, dependent upon options and volume. CIT Relay & Switch lead time is six to eight weeks.

CIT Relay & Switch, a division of Circuit Interruption Technology, Inc., manufactures a broad array of automotive, telecom, security, industrial and audio relays and switches in thru-hole, panel and surface mount styles. CIT Relay & Switch products are supported by a worldwide network of distributors and sales representatives. For more information about the CIT Relay & Switch AD Series switch or any of the CIT relay or switch products, contact CIT Relay & Switch, 14680 James Road, Rogers, MN 55374.
