CIT Relay & Switch offers our NEW EH Series IP65 & Vandal Proof Pushbutton Switch

Minneapolis, Minnesota – CIT Relay & Switch introduces the 12mm EH Series pushbutton switch. This newest addition to the CIT panel mount switch line is heavy-duty and rugged in construction - both splash and vandal proof. The EH series offers momentary switch function in a round style with a choice of brushed stainless steel or black anodized aluminum finish. Cap color options include five colors or stainless steel. The EH Series is available with screw terminals or solder lug termination.

Specifications: The electrical rating of the EH series is 2A at 48VDC. Electrical life is 200,000 cycles with contact resistance of less than 50mΩ. Dielectric strength is 2000Vrms between contacts. Insulation resistance is greater than 100MΩ at 250VDC. Actuation force is 500 ± 100gF with actuator travel of 1.7 ± 0.25mm. Operating and storage temperature is -20°C to 70°C.

Materials: Actuator is stainless steel or polybutylene terephthalate and base is polybutylene terephthalate. The housing is stainless steel or aluminum with silver alloy contacts. Terminals and nut hardware are nickel plated brass.

The EH Series pushbutton switches are ideal for security, industrial and public use applications. CIT Relay & Switch lead-time is six to eight weeks.

CIT Relay & Switch, a division of Circuit Interruption Technology, Inc., manufactures a broad array of automotive, telecom, security, industrial and audio relays and switches in thru-hole, panel and surface mount styles. CIT Relay & Switch products are supported by a worldwide network of distributors and sales representatives. For more information about the CIT Relay & Switch EH Series switch or any of the CIT relay or switch products, contact CIT Relay & Switch, 14680 James Road, Rogers, MN 55374.
